Food containers are made from 100% recycled paper (minimum 35% post consumer content). It is offered in natural kraft or with our stock print design, Sonoma. Jivapack containers can also be custom printed to include your logo and design. This is a great way to send your branding message home with your customers. Whatever style you choose, Jivapack containers will enhance your customers' takeout experience. In addition to being made from 100% recycled paper, they are leak resistant and can hold any type of food whether it is hot, cold, wet, or dry. They retain heat and vent moisture so food is kept fresh.

Food containers are offered in a variety of smaller sizes for better portion control. They can hold all types of foods effectively and are cost effective.

SUSTAINABLE PACKAGING

Consumer demand for sustainable packaging solutions continues to grow. Jivapack food containers are made from 100% recycled paper (minimum 35% post consumer content). Jivapack container includes a sustainability message on the bottom that will assure your customers that you are using sustainable packaging. There is also a website reference that will give your customers additional information about the packaging materials and how they can be recycled. Additionally, Jivapack containers are endorsed by the Restaurants and display their logo on the package.
